*** Limited Availability - Only available to 50 schools due to our capacity ***

“ The room was absolutely buzzing from start to finish

The workshop was such a fantastic experience. The room was absolutely buzzing from start to finish. The way the activities were explained & the language used made it so easy for the girls to get their ideas across. The girls loved every second! It was wonderful. I would certainly recommend them and will definitely be booking them again next year.

Claire Eveleigh – Science Lead,
Edgbaston High School for Girls.

”

FAQs

What kind of space do you need? Jnr Careers in Health – Good sized classroom
Challenge the Champions – Hall or gym (we can pack down at lunch!)

Which year groups and how many can take part? Ideally years 5 & 6, but we can see year 4 too. Typically a class per session, but we can see a few more to make it work!
