Do you prefer your patients to be dead or alive?

Alive

Dead

Do you want to work in an operating team or perform experiments?

Operating Team

Experiments

Abdominal

Do you want to work with patients before or after the operation?

Before

During

After

Operating Department Practitioner

Clinical Perfusionist

Critical Care Technician

Which organ do you want to work with?

Reproductive Organs

Digestive System

Kidneys

Embryologist & Andrologist

Gastrologist

Urodynamics

Vascular Technology

Bugs & Germs

Torso

Head

Peripherals

Blood

Eyes

Brain

Anatomical Pathologist

Vascular Science

Phlebotomist

Vascular Technology

What would you rather work with in the lab?

Bugs & Germs

Drugs

Body Parts

Treatment

Diagnosis

Heart

Lungs

Brain

Pharmacologist

Toxicologist

Cardiologist

Respiratory Physiologist

Drugs

Do you want to treat or diagnose patients in the lab?

Treatment

Diagnosis

Heart

Lungs

Brain

Pharmacologist

Toxicologist

Cardiologist

Respiratory Physiologist

Body Parts

Do you want to be part of an operating team or take samples?

Operating Team

Samples

What would you rather work with?

Blood

Cells

Organs

Haematology

Molecular Geneticist

Cytogeneticist

Cervical Cytology Screener

Do you want to work with the inside or outside of cells?

Inside

Outside

Transplants

Experiments

Microscopes

Histocompatibility

Immunology

Histology

Do you want to treat or diagnose patients?

Diagnose

Treatment

Do you want to work with blood or organs?

Blood

Cells

Organs

How do you want to work with organs?

Transplants

Experiments

Microscopes

Pharmacy

Transfusion Science

Tissue Bank (Biomedical Scientist)

Do you want to work with drugs or equipment?

Drugs

Equipment

Do you want to work with blood or organs?

Blood

Cells

Organs

How do you want to work with organs?

Transplants

Experiments

Microscopes

Pharmacy

Transfusion Science

Tissue Bank (Biomedical Scientist)
